Customers who would buy Tremco again

CUSTOMER PEACE OF MIND

“Problems are solved by Tremco.”

“I don’t think we could do a better job through anyone else.”

“Tremco treats our projects as if they are their own.”

“With their inspectors on site, I don’t have to worry about it.”

MEETING THE PROCUREMENT NEEDS OF THE PUBLIC SECTOR

As the first roofing manufacturer to offer products through cooperative contracting twenty years ago, Tremco Roofing and Building Maintenance and our affiliated construction services company WTI continue to break new ground in cooperative contracting expertise.

Procuring Tremco Roofing CriticalCare through our cooperative contracts ensures public agencies receive exactly what’s needed during today’s challenging time: **speed, quality, transparency and best value**. Because the bid process has been completed according to state regulation, not only can you move quickly (often in as little as 30 days), best-value pricing and the elimination of change orders ensures budget predictability.

Business-as-Usual in Extraordinary Times

During these extraordinary times, we remain committed to meeting your needs and earning your trust. Because although in many ways “business-as-usual” seems a thing of the past, to us it means continuing to do everything we can to help meet our customers’ roofing and building envelope needs as efficiently and economically as we can, without sacrificing quality.

FACILITY MANAGERS SAY
ROOFING PROCUREMENT
IS FASTER, SIMPLER
AND MORE ECONOMICAL
THROUGH TREMCO ROOFING
COOPERATIVE CONTRACTS

“Tremco Roofing was an easy choice. Their roofing contract through cooperative purchasing made procuring our roofing system simple and convenient. We were able to use the contract to save valuable time and money.”

“Through cooperative purchasing, we enjoyed a short project time, zero change orders, and great-looking and leak-free roofs with excellent communications among all parties.”

“Through cooperative purchasing we have completed numerous roofing projects with no problems. We use the program because we can set the quality standard and be confident the project will run smoothly. And the on-site inspectors ensure quality work every time.”

Cooperative Contracts

TRUST IN EXPERIENCE. STRENGTH IN NUMBERS.
